1 OBJECTIVE OF CASH MANAGEMENT POLICY

The Council of the municipality is the trustee of the public revenues which it collects, and it therefore has an obligation to the community to ensure that the municipality's cash resources are managed effectively and efficiently.

2 EFFECTIVE CASH MANAGEMENT

2.1 Cash Collection

All monies due to the municipality must be collected as soon as possible, either on or immediately after due date, and banked on a daily basis.

The respective responsibilities of the chief financial officer and other heads of departments in this regard are defined in a code of financial practice approved by the municipal manager and the chief financial officer.

The support of and commitment to the municipality's credit control policy, both by the council and the municipality's officials, is an integral part of proper cash collections, and by approving the present policy the council pledges itself to such support and commitment.

2.2 Payments to Creditors

The accounting officer must make sure that all money owing by the municipality be paid within 30 days of receiving the relevant invoice or statement , unless prescribed otherwise for certain categories of expenditure.

The chief financial officer shall ensure that all tenders and quotations invited by and contracts entered into by the municipality stipulate payment terms favourable to the municipality, that is, payment to fall due not sooner than the conclusion of the month following the month in which a particular service is rendered to or goods are received by the municipality. This rule shall be departed from only where there are financial incentives for the municipality to effect earlier payment, and any such departure shall be approved by the chief financial officer before any payment is made.

Policy on Cash Management effective 01 July 2024

In the case of small, micro and medium enterprises, where such a policy may cause financial hardship to the contractor, payment may be effected at the conclusion of the month during which the service is rendered or within fourteen days of the date of such service being rendered, whichever is the later. Any such early payment shall be approved by the chief financial officer before any payment is made.

Notwithstanding the foregoing policy directives, the chief financial officer shall make full use of any extended terms of payment offered by suppliers and not settle any accounts earlier than such extended due date, except if the chief financial officer determines that there are financial incentives for the municipality to do so.

The chief financial officer shall not ordinarily process payments for accounts received more than once in each calendar month, such processing to take place on or about the end of the month concerned. Wherever possible, payments shall be effected by means of electronic transfers rather than by cheques.

Special payments to creditors shall only be made with the express approval of the chief financial officer, who shall be satisfied that there are compelling reasons for making such payments prior to the normal month end processing.

After six months, cheques that have been issued but not yet cashed need to be written back to either the vote it was issued or as unrepresented if from prior year.

Cheques issued for deposit refund that becomes stale after six months will be written back as unrepresented cheques.

Unrepresented cheques need to be followed up on an annual basis and re-issued if there is proof that it is done so to the correct person.

For funds electronic transactions (FET's) batches from R1 to R200 000, all should be authorised by any approved signatory below Chief Financial Officer and co-signed by the Chief Financial Officer.

For funds electronic transaction (FET's) batches from R200 001 and above all should be authorised by the Chief Financial Officer and co-signed by the Municipal Manager.

For all cheque payments above R200 000 should be and co-signed by the Chief Financial Officer and the Municipal Manager respectively.

2.3 Management of Inventory

Each head of department shall ensure that such department's inventory levels do not exceed normal operational requirements in the case of items which are not readily available from suppliers, and emergency requirements in the case of items which are readily available from suppliers.

Each head of department shall periodically review the levels of inventory held, and shall ensure that any surplus items be made available to the chief financial officer for sale at a public auction or by other means of disposal, as provided for in the municipality's supply chain management policy.

2.4 Cash Management Programme

The chief financial officer shall prepare an annual estimate of the municipality's cash flows divided into calendar months, and shall update this estimate on a monthly basis. The estimate shall indicate when and for what periods and amounts surplus revenues may be invested, when and for what amounts investments will have to be liquidated, and when – if applicable – either long-term or short-term debt must be incurred. Heads of departments shall in this regard furnish the chief financial officer with all such information as is required, timeously and in the format indicated.

The chief financial officer shall report to the municipal manager and the executive committee, on a monthly basis, and to every ordinary council meeting, the cash flow estimate or revised estimate for such month or reporting period respectively, together with the actual cash flows for the month or period concerned, and cumulatively to date, as well as the estimates or revised estimates of the cash flows for the remaining months of the financial year, aggregated into quarters where appropriate. The cash flow estimates shall be

divided into calendar months, and in reporting the chief financial officer shall provide comments or explanations in regard to any significant cash flow deviation in any calendar month forming part of such report.
